Using Your Device Around Other Electronic Devices

Portal TV generates, uses, and can radiate radio frequency (RF) energy and, if not used in accordance with its instructions, may cause interference to radio communications and electronic equipment. External RF signals may affect improperly installed or inadequately shielded electronic operating systems, entertainment systems, and personal medical devices. While most modern electronic equipment is shielded from external RF signals, if in doubt, check with the manufacturer. For personal medical devices (such as pacemakers and hearing aids), consult

with your physician or the manufacturer to determine if they are adequately shielded from external RF signals.

Utilisation de votre appareil à proximité d'autres appareils électroniques

Portal TV génère, utilise et peut émettre de l'énergie radiofréquence (RF) et, s'il n'est pas utilisé conformément aux instructions qui s'y rapportent, peut causer des interférences avec les communications radio et les appareils électroniques. Les signaux RF externes peuvent affecter les systèmes d'exploitation, les systèmes de divertissement et les appareils médicaux personnels électroniques qui ont été mal installés ou qui sont mal protégés. Même si la plupart

des appareils électroniques modernes sont protégés contre les signaux RF externes, si vous avez des doutes, adressez-vous au fabricant. Dans le cas des appareils médicaux personnels (tels que les stimulateurs cardiaques et les prothèses auditives), consultez votre médecin ou le fabricant pour déterminer s'ils sont correctement protégés contre les signaux RF externes.
